RE: ArChine Foodrance MCL 2
Category Code: H1
NSF Registration No. 145470

Dear Mr. Yang Ming-Fa:

NSF has processed the application for Registration of **ArChine Foodrance MCL 2** to the NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds (2009), which are available at www.nsfwhitebook.org. The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling review.

This product is acceptable as a lubricant with incidental food contact (H1) for use in and around food processing areas. Such compounds may be used on food processing equipment as a protective anti-rust film, as a release agent on gaskets or seals of tank closures, and as a lubricant for machine parts and equipment in locations in which there is a potential exposure of the lubricated part to food. The amount used should be the minimum required to accomplish the desired technical effect on the equipment. If used as an anti-rust film, the compound must be removed from the equipment surface by washing or wiping, as required to leave the surface effectively free of any substance which could be transferred to food being processed.

NSF Registration of this product is current when the NSF Registration Number, Category Code, and Registration Mark appear on the NSF-approved product label, and the Registered product name is included in the current NSF White Book Listing of Nonfood Compounds at the NSF website (www.nsfwhitebook.org). The NSF Registration Mark can be downloaded by clicking the "Download Registration Mark" link on the NSF website (www.nsfwhitebook.org).

NSF Listing of all Registered Nonfood compounds by NSF International is not an endorsement of those compounds, or of any performance or efficacy claims made by the manufacturer.

Registration status may be verified at any time via the NSF website, at www.nsfwhitebook.org. Changes in formulation or label, without the prior written consent of NSF, will void Registration, and will supersede the on-line listing.

Sincerely,

Clifton Mclellan
NSF Nonfood Compounds Registration Program

Company No: C0036286

ArChine Foodrance MCL 2

可与食品偶然接触的低温合成润滑脂

NSF Registration No: 145470 H1 类别

性能

- 低温环境下具有优异的稳定性
- 即使在低温条件下也能保持很好的润滑性能
- 不溶于水和水蒸气
- 超强的抗老化性能

应用

主要应用于冷冻食品加工的各种设备润滑：

- 制冷机的轴承及滑轨
- 冷藏室的挂肉滑道
- 连接头，电缆，齿条，各种运动部件
- 输送链

典型参数

颜色	浅黄色
外观	光滑
皂基	无机物
NLGI	2
60次反复工作的锥入度	265-295
滴点	无
使用温度	-50℃ ~ 200℃
